Dear members, colleagues, partners and friends,

A year ago, the Child Protection Network Foundation launched a campaign to increase awareness about our organization, our members and the vital work that we do to protect children from abuse and neglect. I am pleased to report the significant strides we have made in raising our public profile in the business and social community, the general public, and the government agencies involved in child protection. With the extraordinary support of our Board, two very special events raised the visibility of CPN and the CPUs in general. 400 members of the Philippine elite in business and society learned about CPU and the abused children it served during the Tatler Ball and their response was overwhelming! The Manila Conference attracted 636 participants from all sectors: physicians, social workers, teachers, guidance counselors, psychologists, parents, police, members of the judiciary, legislators were all in attendance. The Manila Conference helped our members update their skills and continue to grow while reaching out to other key stakeholders to join the fight against child abuse. These two events, so different in character but sharing one vision, enabled CPN to reach its target goals in raising funds for its programs.

Consuelo Foundation is CPN’s Most Valuable Partner Awardee (MVP) for 2010. Consuelo is responsible for the formation of the Child Abuse Prevention and Intervention Network (CAPIN) in selected high-risk municipalities which works hand-in-hand with the CPU of the area in managing child abuse cases. In areas where there is no CPU, Consuelo plans to work with CPN towards the establishment of one. CPN’s Child Protection Specialty Course is in full swing with PGH CPU fully booked for 2011. To increase the capacity of PGH CPU as the National Training Center, more trainees will be enrolled in the Blended Learning course on child protection which utilizes distance learning through the internet.

The Child Abuse Management Information System of PGH CPU has been successfully adapted by 26 CPUs nationwide. This was done through the support of UNICEF Manila. The CPMIS program as well as the concept of networking of “CPUs” is the first of its kind in the whole world. The website www.childprotectionnetwork.org has been launched. This has expanded access to our educational resources for the professionals working in the frontlines and raised visibility of our profession.

As we prepare for the new year, we give recognition to the dedicated professionals of the 38 Child Protection Units nationwide. It is their commitment, enthusiasm and generosity of spirit that continue to inspire us all to fulfill our vision that every child in the Philippines will have access to compassionate and competent care that a CPU offers.

Sincerely yours,

Bernadette J. Madrid, MD
Timeline Across Fourteen Years

1997 The creation of the Child Protection Unit at the Philippine General Hospital – a dedicated emergency room & clinic for abused children.

2002 Child Protection Network begins work of establishing child protection clinics at leading hospitals throughout the Philippines. Six child protection units launched in year one.

Education program formalized for training professionals in child abuse diagnosis, treatment and prosecution. Multi-disciplinary modules written for training of medical students, physicians, mental health professionals, social workers, court-appointed guardians, police officers, prosecutors, judges and municipal health officers.

2008 Ten prominent Philippine leaders recruited to national governing board of Child Protection Network.

2009 With its National Center, network of provincial child protection units, education curriculum for ten related professions and a national professional society, Philippines now the leading nation in Asia and in developing world for the care of abused children.

2010 Child Protection Network reaches 38 child protection units in 25 provinces.
**Vision**

All children in the Philippines and throughout Asia are protected from abuse and neglect.

**Five Pillars of the Foundation's Work**

**Medical & Psychosocial Care**
- diagnosis
- medical care
- STI treatment
- mental health treatment
- social work services
- location of safe circumstance
- long-term monitoring

**Child Safety & Legal Protection**
- referrals from PNP & DSWD
- forensic examination & interview
- mental health treatment for offending parents and children in conflict with the law
- prosecutor consultation
- expert testimony
- social work services
- family education & consultation
- Kids court

**National Center for Education**
- Multi-disciplinary Team Training
- physician training
- social work training
- police training
- legal training
- judge training
- advocacy in legislature and media

**UP-PGH CPU**
12,326 children treated

3,744

Mission
The Asian Center for Child Protection in collaboration with all Child Protection Units shall serve every abused child with compassion and competence ensuring that all abused children and children at risk are safe, healthy, and developing to the best of their potential within a nurturing family environment.

The Foundation’s Work

III

National Center for Education

- Police training
- Legal training
- Judge training
- Advocacy in legislature and media

IV

National Network of Child Protection Units

- 79 physicians
- 38 centers covering 25 provinces
- Seed funding
- Staff training
- Best practices sharing
- 24/7 consultation
- Roundtable discussions
- Annual conference
- Visiting Professor Program
- Safety Net
- Medical Alert
- Peer Review

V

Research & National Database on Child Abuse

- Design & installation of case-tracking system
- Standard system to be installed in all CPUs
- Cases tracked for research & policy development
- Shared national database
- Cutting-edge research for developing countries
- CPMIS installed in 26 CPUs
For the past 14 years, sexual abuse has remained as the number 1 reason to bring a child to a CPU. However, there is an increasing number of physical abuse cases. The peak reports of child physical abuse is at 13-15 years which is the same as that of child sexual abuse. This reflects the special vulnerability of this age group where studies on neurobiological development reveal that adolescents at this stage exhibit an increase in risky behaviors and sensation seeking, susceptibility to peer pressure, poor impulse control and poor future orientation.

The age pattern every year is almost identical. The most at-risk age group is 13-15 years old. The Philippines has the youngest age of statutory rape in the world at below 12 years old. This may be one of the major reasons for the sharp spike of sexual abuse cases at 13-15 years old.
Majority of the children seen at the CPUs are sexually abused girls. This has not changed through the years. For physical abuse cases there is no significant difference between reports of boys and girls.

In the previous years, the police has been the primary source of referral. What is notable in 2010 is the significant increase in walk-in patients such that it almost equals the number of police referrals. This signifies an increase in community awareness of the services of the CPUs.

The same types of perpetrators for both physical and sexual abuse are seen yearly. Majority of the perpetrators are known to the child. A concerning development is the increasing use of social networking sites by perpetrators of sexual abuse.

Setting up CPUs with Plan Philippines

In 2006, the first community-based child protection unit (CPU) was set up in Bani, Pangasinan. Through PLAN Philippines’ coordination with the local government unit (LGU), a team composed of a doctor, a social worker, and a police officer underwent Child Protection Specialty Training at the UP Manila Philippine General Hospital-Child Protection Unit. Through Plan’s support, the trained team now works in the renovated structure where the LGU-Bani CPU is located.

Four (4) years later, 11 additional CPUs are fully operational in PLAN-assisted communities, located in Gov. Faustino N. Dy Memorial Hospital (Ilagan, Isabela), Palangga-CPU (Catarman, Northern Samar), Liloan Community Hospital (Maasin City, Southern Leyte), Purple Hearts (San Jose, Mindoro Occidental) Masbate Provincial Hospital, Eastern Samar Provincial Hospital (Borongan, Samar), Pintuyan-CPU (Southern Leyte), San Francisco-CPU (Camotes Island, Cebu), Sta. Margarita-CPU (Samar), Salcedo-CPU (Samar), and Eastern Visayas Regional Medical Center (Tacloban City).

The CPUs now located in Bani, Pangasinan, Gov. Faustino N. Dy Memorial Hospital, Purple Hearts, and Masbate Provincial Hospital are now self-sustaining and receiving support from their respective LGUs.

Since 2006, 17 doctors, 14 social workers, 1 assistant social worker, and 15 police investigators have been trained to work together and provide the highest standard of care for abused children. Beyond their training, the Child Protection Network continues to provide experts’ technical support and continuing education to these child protection specialists and professionals.

For 2011, Plan committed support for the training of five (5) more teams.

- Safety and Risk Assessment
- Case Management

**Legal Services:**
- Legal Counseling

**Police Services:**
- Investigation
- On-Site Case Filing
In 2010, Consuelo Foundation (CF) was the recipient of the “Most Valuable Partner Award” of Child Protection Network (CPU-NET).

Created in 1988 to improve the lives and living conditions of disadvantaged children, women, and families throughout the Philippines and Hawaii. The Foundation pays special interest “to children who must acquiesce to sexual exploitation in order to survive.”

An esteemed, long-time partner of CPU-NET in child protection work, the Foundation paved the way for the establishment of a child protection unit (CPU) in Oas, Albay.

The Foundation conceptualized and initiated the formation of Child Abuse Prevention and Intervention Network (CAPIN) in selected high-risk municipalities and cities and is composed of government and non-government organizations that constitute the five pillars of the justice system.

In 2011, CPU-NET will partner with the Foundation for the training of nine (9) CAPINs operating in Albay, Mandaue City, Pasay City, Angeles, Pampanga, Samar, Baguio City, Zamboanga City, Zamboanga Sibugay, and Laguna. These teams will undergo the “Certificate Training in Child Protection Specialty Through Blended Learning,” using an online program coupled with a two-week on-site practicum at the UP Manila Philippine General Hospital-Child Protection Units. The graduates will run and operate a CPU in their respective areas and thereby make competent, quality, and multidisciplinary medical and psycho-social care accessible to victims of child abuse, neglect, and exploitation.

2010 MVP awardee gearing up for more CPUs in 2011

1. WHAT IS THE CPMIS?
The CPMIS is a database system piloted at the PGH-CPU to facilitate child protection case management and research in the unit as well as in other CPUs across the Philippines.

2. BASIC FEATURES:
   a) Format – reflects current practice in CPU
   b) User-friendly
   c) Data accuracy – mandatory fields and safeguards built in
   d) Research - built-in queries, query wizard ability to export data for use in other analytical software (e.g., SPSS)
   e) Security - user access limited to pertinent module
   f) Replication - Easy to install / can be deployed to other CPUs Data from other CPUs can be put together
   g) Tracking common patients and perpetrators
   h) Confidentiality - Protected at all levels
      Ensured at data aggregation

3. USAGE
   a) Individual case management
   b) Research
   c) Official reports
   d) Process reports
   e) CPU process improvement initiatives
   f) Standardization of the child protection system

4. THE VISION: A national surveillance system that will provide ongoing, systematic collection, analysis and interpretation of child maltreatment data for the use in the planning, implementation, and evaluation of the services included in the care continuum for child abuse and neglect. This will gauge the magnitude and impact of child abuse and neglect in the general population; identify those who are at the highest risk and emerging health concerns; monitor trends; inform the allocation of resources; and detect changes in professional practice.

5. THE FUTURE IS NEAR: 26 Child Protection Units now using the CPMIS through the support of UNICEF.
Promina supports the 2010 Ako Para sa Bata Manila Conference.

Organizing Committee of the 2010 Ako Para sa Bata Manila Conference with volunteers and invited speakers.

Vanessa Tobin, UNICEF country representative, delivers the keynote address at the 2010 Ako Para sa Bata Manila Conference. UNICEF is a major conference sponsor.
Philippine Tatler, represented by Irene Martel-Francisco and Mia Borromeo, receives from Mr. Bradley and Dr. Madrid a certificate of appreciation.

Mandarin’s A Glorious Sound of Christmas

Mandarin Oriental Manila’s staff turns over to PGH-CPU toys, cash, and check donations raised through its A Glorious Sound of Christmas Concert.
Thank You

Ang mga services na naitulong nyo po sa akin ay ang magtitibay at nagbibata-tag ng LOOB.
God Bless

In 2010, Child Protection Network Foundation more than doubled its assets through the hardwork of its board members and the continuing support of Citybridge Foundation and its chair, David Bradley.

The Child Protection Network Foundation has taken a giant step towards the building of a stable platform to realize its immediate goals of supporting direct medical, psychosocial and legal support to abused children and their families and the establishment of Child Protection Units in every province.

In 2009, local support for CPU-NET was only 1.5% of the total donations. In 2010, 55% of the donations came from local support.

Note: The external audit was performed by R.S. Bernaldo & Associates Certified Public Accountants.
