The Developing Adolescent in the Digital Generation

Social Cyberspace:

By Bernadette J. Madrid, MD

Cyberculture & Youth: Family & Education

By Fr. Fidel Orendain, SDB

Violence Against Children in the Philippines: The Facts

By Lotta Sylwander

DepEd on Cyber-Safety

By Leah Patricia M. Galgo

AKO PARA SA BATA Conference: Youth Inspirational Speech

By Emma Farrarons

Lunch Symposium: Taking A Stand Against Online Child Abuse

By Thelsa P. Biolena

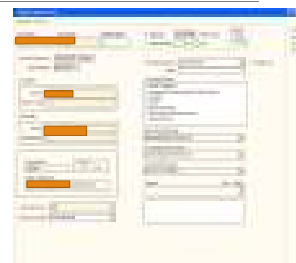

The Developing Adolescent in the Digital Generation

BERNADETTE J. MADRID, MD
EXECUTIVE DIRECTOR
CHILD PROTECTION NETWORK
FOUNDATION, INC.

1. Give an overview of what is trending in the cases seen at the Child Protection Units.
2. Discuss normal adolescent development and how this may lead to high risk behavior in using social media.
3. Use the socio-ecological framework to introduce ways in which dangers of the digital world can be prevented.

The CPMIS is a database system developed by the PGH-CPU to facilitate child protection case management and research in the unit as well as in other CPUs across the Philippines.

What's Trending ?

Sexual abuse in children through social media: the Philippine General Hospital Child Protection Unit experience, a 5-year review

PANTIG F, TAN M, DANS, L
DEPARTMENT OF PEDIATRICS
PHILIPPINE GENERAL HOSPITAL

AK PARA SA BOTA

Results

Age group	Number of children whose sexual abuse involved the use of social media
0-9 years	0
10-13 years (early adolescence)	4 (33.3%)
14-16 years (middle adolescence)	88 (84.2%)
17-18 years (late adolescence)	8 (9.7%)
Total	100 (100%)

Socioeconomic status	Number of children whose sexual abuse involved the use of social media
Low	88 (88.0%)
Middle	8 (7.6%)
Upper	3 (2.9%)
Unclassified	11 (10.5%)
Total	110 (100%)

AK PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CBRU

Results

Educational standing	Number of children whose sexual abuse involved the use of social media
Enrolled	4 (9.8%)
Discontinued	33 (78.9%)
College	4 (9.8%)
Out of school youth	0
Unclassified	1 (2.4%)
Total	41 (100%)

Relationship	Number
Boyfriend	17
Friend	10
Stranger	4
Classmate	3
Household helper	2
Cousin	1
Schoolmate	1
Stepmother	1
Sister	1
Uncle	1

Pictures and videos uploaded in the internet	7
Online games	2
Total	41

AK PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CBRU

Discussion

Child maltreatment is related to relatively poor cognitive performance, particularly lower verbal abilities and receptive language acquisition

41% of the victims identified in this study claimed that the perpetrator is their boyfriend, and more than half of these victims admitted to meeting their boyfriend for the first time through social media, and engaging in a relationship even prior to actually meeting their boyfriend in person

Risky Cybersex and Fourth year High School Students in a Public and Private High School in Metro Manila Predisposing to Sexual Solicitation and Harassment : Cross Sectional Study

Marivie A. Flores, Merle P. Tan, Germana Gregorio, M.D

(Winner, PPS Research Contest)

AK PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CBRU

Results

224 respondents
 54% were female, 45% male
 Majority were ages 14-16 y.o.
 Internet shop is the common place -54%
 Average use was $\geq 5x$ a week (40%) at
 1-2 hrs a day (46%)
 Research is the most common reason followed
 by online gaming

Flores, Tan, Gregorio (2009)

AK PARA SA BETA
 THE INTERNATIONAL CONFERENCE IN CEBU

Results

Adolescents' Risky Online Behaviors :

- ✓ Posting personal information - 91%
- ✓ Chatting with unknown people - 58%
- ✓ Having many unknown people in friends list - 46%
- ✓ Opening x-rated web sites - 23%
- ✓ Eyeball with people met online - 9%

Flores, Tan, Gregorio (2009)

AK PARA SA BETA
 THE INTERNATIONAL CONFERENCE IN CEBU

Results

The odds of experiencing internet harassment and/or sexual solicitation is twice for those:

- Sending personal information online, interacting with unknown persons,
- Having unknown persons on the buddy list
- Using the internet $>5x$ a week

.... but the odds are **increased 4x** for those visiting x-rated websites.

Flores, Tan, Gregorio (2009)

AK PARA SA BETA
 THE INTERNATIONAL CONFERENCE IN CEBU

Results

- 23% of adolescents experienced internet harassment;
- 50% sexual solicitation;
- 28% both sexual solicitation and harassment

Flores, Tan, Gregorio (2009)

AK PARA SA BETA

Why is this happening?

AK PARA SA BETA
 THE INTERNATIONAL CONFERENCE IN CEBU

Generation M/Generation Z

- Digital natives, "screenagers"
- Multitasking generation
- Constitute the largest proportion of digital media users

AK PARA SA BETA
 THE INTERNATIONAL CONFERENCE IN CEBU

Major social anxieties about the adolescent and digital media

- Moral panics about adolescent behavior in general
- Growing alarm about intense, addictive, and widespread media consumption

Choudry, S., McKinney K, 2013
Transcultural Psychiatry 50(2), 192-215

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CBRU

Major social anxieties about the adolescent and digital media

Are young people becoming unempathic, passive, intellectually shallow and uncritical, desensitized, depressed and attention deficient because of cyber technology? (Derbyshire, 2009)

Choudry, S., McKinney K, 2013
Transcultural Psychiatry 50(2), 192-215

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CBRU

Adolescence: Critical Period

- More susceptible to addiction – alcohol, drugs, smoking, internet
 - Increased risk for more damaging effects of substance abuse
 - More vulnerable to stress – depression
- Empathy compromised

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CBRU

Does internet use reshape the brain?

Small & Vorgan claim that the internet exacerbates existing “natural” social cognitive deficits and proneness for instant gratification and risk-orientation in adolescents “impairing social and reasoning abilities” by “stunting development of the prefrontal cortex”.

Small, G., & Vorgan, G. (2008). *iBrain: Surviving the technological alteration of the modern mind*. New York, NY: HarperCollins

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CBRU

The Teen Brain

The brain of adolescents are not yet mature.

Brain does not reach full maturity till the age of **25 years.**

Malcolm Ritter, “Scientists: Teen Brain still Maturing,” Associated Press (Dec. 2, 2007)
www.washingtonpost.com/wp-

AK PARA SA BETA

THE INTERNATIONAL CONFERENCE IN CEBU

The Adolescent Brain

Use an alternative part of the brain
(amygdala- seat of emotions)

More attention to rewards
Less attention to costs

increase in risky behavior

Casey, BJ, Getz, S, Galvan, A. "The Adolescent Brain." *Developmental Review* 28 (2008) 62-77

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

The Adolescent Brain

Immature prefrontal cortex

Poor self-regulation

increase in impulsivity

Casey, BJ, Getz, S, Galvan, A. "The Adolescent Brain." *Developmental Review* 28 (2008) 62-77

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

The Adolescent Brain

Poor impulse control

Sensation seeking increase from 12-15 years then steadily declines

Susceptibility to peer pressure (peak at 14 years) e.g. commit crimes together with peers.

Poor decision-making- inexperience, poor future orientation, emotionality

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

"Basic intellectual abilities reach adult levels (around 16 years) before the process of psycho-social maturation is complete."

Steinberg (2008)
Dev Review 28; 88-106

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

Two of the key tasks of adolescence

➤ To fit in – to find comfortable affiliations and gain acceptance from peers

➤ To stand out – to develop an identity and pursue autonomy

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

Motivation for using social networking sites (SNS)

- To stay in touch with friends
- Make plans
- Get to know people better
- Present oneself to others

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

“Fitting In”

Stimulation Hypothesis

Adolescents in general have an easier time self-disclosing online than face-to-face communication, which is a less threatening format in which adolescents can share freely.

McKenna & Bargh, 2000
Plan 9 from cyberspace: The implications of the Internet for personality and social psychology. *Personality and Social Psychology Review*. 2000; 4(57):57–75

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

“Fitting In”

Rich-get-richer hypothesis

For highly sociable adolescents, more online communications relates to more cohesive relationships.

Lee, 2009
Online communication and adolescent social ties: who benefits more from Internet use? *Journal of Computer-Mediated Communication*. 2009; 14(3):509–531

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

“Fitting In”

Social compensation hypothesis

Adolescents who are uncomfortable interacting with peers in face-to-face contexts are better able to develop social networks and meet their social needs online where certain channels of communication, including voice tone, eye contact, and facial expressions, are not available.

McKenna, Green & Gleason, 2002
Relationship formation on the Internet: What's the big attraction? *Journal of Social Issues*. 2002; 58(1):9–31.

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

“Fitting In”

Generally, SNS use appears to benefit and not detract from adolescents' sense of peer affiliation, but adolescents' offline level of social functioning is a consideration in the overall impact.

Shapiro and Margolin, 2014
Growing Up Wired: Social Networking Sites and Adolescent Psychosocial Development. *Clin Child Fam Psychol Rev* 17(1): 1–18.

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

Forming an Identity

- ❑ The internet offers many opportunities to adolescents to experiment with their identities – *digiphrenia*
- ❑ Interact with a wide variety of people, provide extra sounding boards

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

Sexual Identity & Behavior

- Pubertal development
- Level of sensation seeking
- Uncertainty that may surround the formation of sexual beliefs and values
- Attitudes toward the exploration of sexual matters

AK PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Sexually Explicit Internet Material (SEIM)

Depicts sexual realities that deviate from the adolescent's sexual lives and present beliefs and values that conflict with those that the youth learn in families and schools

May change attitudes towards exploration of sexual matters

May feel uncertain about learned sexual beliefs & values esp. uncommitted sexual exploration

Peter & Valbenburg, 2008

AK PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Adolescents' Classification of Sexual Partners

- Steady Partners
- Casual Partners/Friends
- "One-night-stand" partners

Manning, et al, 2005
Ellen, Cahn, Eyre & Boyer, 1996

AK PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Exposure to SEIM related to:

- Sexually permissive attitudes
- More lenient views of extra marital sex
- Recreational attitude towards sex
- Stronger notions of women as sex objects

Lo & Wei, 2005
Peter & Valkenburg, 2006, 2007

CYBERCULTURE & YOUTH: FAMILY & EDUCATION

Fr. Fidel Orendain, SDB

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

- 1970s, cyberculture was the exclusive domain of a handful of technology experts
- 1990s, ICTs shifted to entertainment, research, culture, business and social relations

AK PARA SA BETA
THE INTERNATIONAL CONFERENCE IN CEBU

“cyberculture”

a collection of **cultures** and **cultural products** facilitated by Information Communication Technologies (ICT),

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

On the Family

1985

2015

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

the home and the school are able
to gain much from new
technologies.

But they also feel inadequate

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Three major assumption

- new technologies are causing rapid transformation everywhere.
- they are greatly affecting the growth of young people
- traditional Institutions are struggling to be more pro-active

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

#1**Information Communication Technology (ICT)
TRANSFORMATION**

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Several themes emerge

- ICT contribute to a society's growth and innovation
- Benefits do not always outweigh potential negative effects
- ICT is revising established social roles and norms

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

- (ICT) introduced dramatic changes
- (ICT) has become a dominant & pervasive
- ICT's growth and diffusion has happened with astounding speed.

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Cell phones have dramatically changed majority of the Filipinos.

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

... the Filipino society would rather lose their personal necessities such as soap and shampoo rather than lose internet access and their cell phones.”

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

GENERATIONAL SIMILARITIES

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

What's Common

1. Facing Physical & mental Change
2. Entering the Age of Reason
3. Face Personal Morality & Values
4. Thinking About Sex and Marriage
5. Questioning the Future

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

#2 ICT and Youth Transformation

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Five Fundamental Differences

1. The Fragmented Family
2. Quick and easy access to massive Information and Knowledge
3. Knowledge of and Exposure to Violence & Sexuality
4. Neutral Moral and Religious Values
5. Technology

Why do we need to do this?

- we care for young people
- we are not familiar with the new
- we are also affected by ICT and;
- we know new things confuse us

We study ICT because:

- They control the quality and quantity of our communication;
- They are everywhere
- They bring about a new **CULTURE**: the cyber culture

**ICT is pervasive.
Children's daily routine is
structured around the use of ICT.**

Internet use survey:

- **Communication**
- **Entertainment**
- **Information**

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

**low level of
education-
related use.**

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Some concerns:

- **Reduced face-to-face contacts
are increasing insecurity**
- **Diminishing familial bonds**
- **Less physically active lives**
- **Diminishing solidarity with
people**

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Some concerns:

- **Privacy**
- **Degeneration of manners**
- **Technology addiction**

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

The Young Adult Fertility and Sexuality (YAFS) 2013:

- 6 in 10 of young people in this age range are regular internet users.
- 4 in 10 have social network and email account
- 8 in 10 have mobile phones.

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

How they build relationships

- 33% of young people have friends whom they only met online
- 25% have friends whom they met through text and have not seen personally.

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Challenges to Youth

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Sexual Experimentation

- new forms of sexual activity and
- new means of meeting partners

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Children who use social networking sites are:

- **46%** more likely to have received sexual messages
- **55%** more likely to have seen sexual images on websites
- **56%** more likely to have encountered negative user generated content

(Staksrud, Ólafsson & Livingstone 2013)

The Narcissism Epidemic: Living in the Age of Entitlement.

By
Jean Twenge and Keith Campbell

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Narcissism

- is rising among youth at an alarming rate.
- “at epidemic proportions.”

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

narcissism is no longer a psychological condition..but has transitioned to becoming a collective **cultural trait**.

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

What do doctors say?

- Inflated sense of self
- Thinking that one is special & unique

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

What do doctors say?

- Inflated sense of self
- Thinking that one is special & unique
- Feeling Entitled to better treatment than others
- Too much time making oneself look & feel good
- Inclination for immediate gratification

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

What do doctors say?

- low tolerance for pain, inconvenience and discomfort

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

What do doctors say?

- Uninterested in deep relationships
- Uninterested in real emotional connection and care

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

What do doctors say?

- Resorts to aggression when frustrated
- Resorts to dishonesty to get what one wants

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

7 subscale Narcissistic Personality Inventory (NPI)

- Authority
- Exhibitionism
- Exploitativeness
- Entitlement
- Liberated/ independent (self-sufficiency)
- Superiority
- Vanity

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

The Book Concludes:

- There is a rise in narcissism
- A shift in shared cultural values, beliefs and practices
- Healthy self-confidence is being replaced by narcissism

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

Direct contributors

- Shifts in parenting strategies
- The new culture of media
- Social Media's encouragement for self-display,

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

#3 ICT/ CYBERCULTURE: THE FAMILY & EDUCATION

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

FAMILY

...is the basic or the most fundamental unit in any society.

Key to understand

GOOD COMMUNICATION IS
AN IMPORTANT TOOL
TO MAINTAIN
GOOD RELATIONSHIPS
AMONG MEMBERS OF THE
FAMILY

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

PRESERVE = UNDERSTAND

GOOD COMMUNICATION

GOOD RELATIONSHIPS

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN CEBU

FACTORS THAT AFFECT THE QUALITY OF A FAMILY RELATIONSHIP

1. Togetherness
2. Memories
3. Communication
4. Values
5. Support

AKO PARA SA BOTA
THE INTERNATIONAL CONFERENCE IN Cebu

There are signs that parents are persuaded not only to provide for their children's needs, but also their unnecessary wants.

VAC in the Philippines: The Facts

VAC: East Asia and Pacific Region

In 2012, a UN review of research on child maltreatment in our region revealed high rates of child abuse, neglect, violence and exploitation.

The review confirmed findings in other regions, showing strong correlations with:

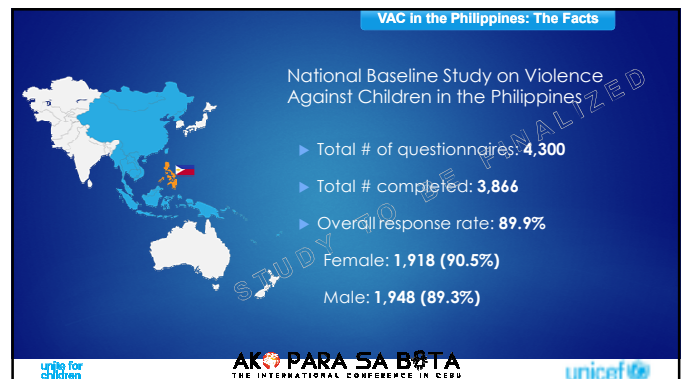

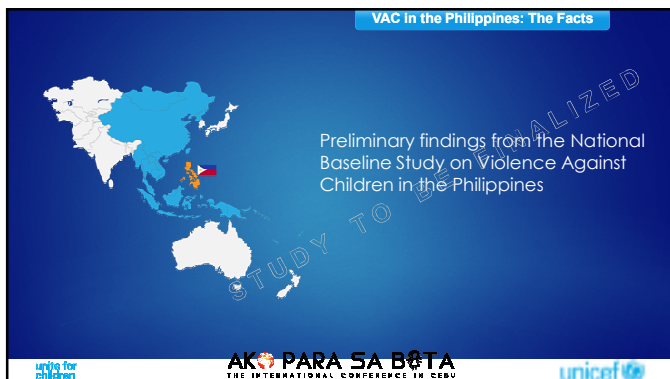

- ▶ negative physical health
- ▶ negative mental health
- ▶ high-risk sexual behaviors
- ▶ increased exposure to violence later in life

The Philippines: At the Forefront of Response

The Government of the Philippines deserves recognition and commendation for:

- ▶ Implementing a comprehensive approach to combat child online protection via convergence of different inter-agency councils and government offices, and
- ▶ Adopting strong legislation to support and protect children from cybercrimes, including tough penalties for perpetrators of the worst crimes.

UNICEF: Supporting Prevention and Response

UNICEF recognizes that children are an essential part of the solution.

As more children connect online, they must be empowered to take advantage of the opportunities, but also have the knowledge to protect themselves from harm.

VAC in the Philippines: The Facts

**The Government of the Philippines and UNICEF:
A Joint Commitment**

As a state party to the Convention on the Rights of the Child, and as part of the new Global Sustainable Development Goals, the **Government of the Philippines** has made a commitment to protecting children from violence, abuse and exploitation (SDG 16.2). Protecting children from online threats is a critical part of delivering on these promises.

As an organization that puts children at the heart of all its work, **UNICEF** will continue building and supporting global and local strategies that aim to put an end to child online exploitation as part of a wider movement to stop violence against children in all its forms.

AKO PARA SA BATA Conference: Youth Inspirational Speech
By Emma Farrarons
(written by representatives of the Youth Manifesto Group)

Esteemed conference organizers, honored members of the audience, fellow youth, ladies and gentlemen, good morning.

Just one month and a half ago, last October 17 and 18, 2015 two hundred and fifty student leaders from Talisay City, Mandaue City, Lapu-Lapu City and Cebu City attended a Youth Conference at the Bayfront Hotel, Cebu City organized by the Child Protection Network Foundation, UNICEF and the Salesians of St. John Bosco. The two-day event had the theme **"Shift, CTRL, Del."** The theme came from parts of the keyboard in our computers and phones we have grown accustomed to using: Shifting Attention to what matters, Controlling Cyber Usage, Deleting Practices that harm others.

We were re-oriented of the beauty of the new technologies that allow us to receive, share and produce massive information at amazing speed and quantity. Yet, these instruments, now so accessible to us, also open us up to tremendous risks. Particularly when left to ourselves, we experiment on new forms of social engagement. The conference provided us opportunities to become aware of the different cyber abuses happening to and caused by teenagers. Of particular note is *cyber bullying* which by several global surveys and various news reports is clearly on the rise. In the conference, it was emphasized that the abuse of communication technologies was the reason for this increasingly disturbing phenomenon. The words and photos we so casually exchange and spread through the mobile phone, the internet and social media could hurt others deeply – causing them to feel alienated, lose their self-esteem, abandon school, feel angry and in some cases commit suicide.

The conference has roused us from our nonchalance and has very clearly shown that cyber bullying is happening right in our communities, in our schools, and in our homes. It even breaches the privacy and security of our own bedrooms.

From the meaningful inputs and exchanges of the two-day conference, we, the youth participants, drew out a manifesto that stated our awareness, solutions, call to action and commitment to stand up against cyber bullying. The conference called for us to become **CTRL – CYBER TEENS RESPONSIBLE LEADERS** – and we stood up to take the challenge.

I am here before you now, in behalf of the student leaders who framed the youth manifesto and the student participants who represented all 115 public and private schools in that defining event, to share the post-conference strides we have taken.

First, we echoed our knowledge. We conducted echo sessions in our respective schools about cyber bullying. Preparing the talk and giving it was certainly daunting not only because we gave it to our fellow students but also to parents and teachers as well. But sharing such valuable information was a must. We had slides, videos, and printed materials to help us through our input. There were mixed emotions and reactions as we discussed the issue. There were students who laughed, cried, and were intrigued as the topic went through deeper depths. Our listeners shared that their eyes were opened and they realized the some of their actions may have been hurtful to classmates and friends. Some too admitted that they are on the verge of digital addiction; others shared how they felt after being cyberbullied – a few have even thought of committing suicide. In addition to the echo sessions, some of our schools made cyber bullying a topic in class. There's hope that CTRL – Cyber Teens Responsible Leaders – will spread fast and be a buzzword among us teeners wishing and wanting a safe and bully-free cyber space.

Second, we advocated. We went to see the City Councils of Talisay City, Mandaue City and Cebu City to advocate for resolutions against cyber bullying. Child Protection Network representative, Dr. Naomi Poca was with us on this and Fr. Fidel Orendain of the Salesians of Don Bosco. He and his congregation have always been proponents on the responsible use of info and communication technologies among teenagers.

We felt both joy and pressure stepping into the legislative halls. Standing in front of the law makers of the respective local government units and having their ears on what we have to say was no easy challenge. But we did it.

We asked the respective city councils to intervene in the promotion of a Cyber Safe Environment for us, young people.

Concretely,

1. We respectfully suggested that the City mandates and follows up **EDUCATIONAL INSTITUTIONS** in the establishment of (a) a Cyber Literacy Program in their respective school curriculum and (b) a Cyber Abuse Prevention and Intervention in their respective school policies, including punishment for offenders.
2. We respectfully suggested that the City regularly monitors **BUSINESS ESTABLISHMENTS** (internet cafes and ICT vendors) and holds accountable those that indiscriminately allow minors to overstay in their shops, access adult content online and purchase mature video movies and games.
3. We respectfully suggested that the City empowers **FAMILIES** by sponsoring seminars for parents on responsible child-rearing practices that do not allow over exposure of children to media instruments, especially at an early age which can later on lead to technology and social media addiction.

We are happy to say that all three local government units were very receptive to our advocacy. The Talisay City Council passed a resolution along these lines. The Councils of both Mandaue City and Cebu City marked in their agenda the discussion and drafting of resolutions in support of our cause.

Third, we tread on. We continue our awareness-raising and advocacy online and offline, in person and in print, in small and large gatherings. Adults may give us amused looks, as if to say we are being ambitious. Yes, adults may call it that. But we call it idealism.

We truly feel that we can make a difference; that the cyber advocacy that we have started, can spell the difference between boosting young people's self-worth or bursting their self-esteem.

We mean it when we accepted the challenge to be **CTRL – CYBER TEENS RESPONSIBLE LEADERS**. We look upon you, participants in this august assembly, to take up the cudgels for us too. Help us **SHIFT** the attention to favor Cyber Safety for Youth. Do not **DELETE** our hope.

Thank you and good morning.
